DAS ESSZIMMER – Space for art+ takes over for the 2ed time the Weltraum during Art Basel.

– 39 national and international artists invited their current art favourites the Pop-Up Gallery-Weltraum during Art Basel.

In the 2ed edition of the 2016 successfully launched art event the invited artists from 2016 become artist-curators and present 34 international artists. As reaction and reflection on their own work and their very own perception on art they developed on this bases. Parallel to Art Basel the Weltraum becomes a platform for exchange, discussion, networking and encounter apart from the familiar art-paths and –rituals for everybody! – Art-Shopping possible!

The works of the invited artists are not following a special theme but represent their current production – creating together, on a 16m large wall, a temporary *Gesamtkunstwerk*.

DAS ESSZIMMER – space for art+ is a non-profit, *artist-run-space*, of Swiss artist Sibylle Feucht – 2011 founded in Bonn. The exhibition space renounces explicitly a specific conceptual and/or formal direction in favour of a broad array of contemporary international positions. The art space frequently cooperates with other *off-spaces*, institutions and independent curators.

The **Weltraum** was initiated 2011 by Swiss artist couple stöckerselig® from Basel and functions as a trans disciplinary laboratory. In the *Weltraum* researchers from different areas and at any stage of their career have the possibility to present their work outside of standardized selection and market mechanisms and have discussions with an interested audience. The *Weltraum* is a knowledge transfer and social project in one, providing access to innovative thoughts and work processes as well as the platform for active debate.
