

SUPER MARKET FORUM

SUPERMARKET FORUM is an initiative by Supermarket – Stockholm Independent Art Fair first introduced in 2019. This informal networking event connects Supermarket's exhibitors with the contemporary Swedish art scene. The programme allows the exhibitors to meet curators, gallerists, art organisers and representatives of art institutions, present their projects in depth and talk to other participants and guests within a simple framework focused on meetings and tours around the art fair.

25 May 2022 | Skärholmen centrum | Stockholm

Professional Preview & Party

Programme items – glossary

Round table stands for lightly moderated discussions in small groups with several outlined topics.

Speed networking is a cover name for fast-paced sessions that serve to introduce the participants, exhibitors and their projects to one another in a relaxed format.

Touring refers to touring the art fair in small groups consisting of Forum participants and exhibitors. Each exhibitor will take the group to their booth and provide a short presentation of the project and artists.

Fika is a very Swedish thing and means an infinite amount of coffee and cake. With an added twist we now take the plain fika to new heights.

♥ **Heart Fika** allows you to give your special sticker heart to a person you would like to meet and talk with in a professional context over a relaxing cup of coffee.

Feel free to bring your promotional materials and publications. You can leave them with our staff at the info desk upon registration who will then place it on the display table. With questions contact Forum coordinator Lucie Gottlieb at lucie@supermarketartfair.com.
